The work of school council is legislated in Alberta's School Act. ASCA receives funds from Alberta Education targeted to enhance school council effectiveness with training, resources and supports.

Working with government and organizations in Alberta, ASCA promotes parent involvement in public education, and presents parent views and voice into the provincial education system.

ASCA ensures parents are recognized and respected as knowledgeable, supportive contributors to their children's education, and are provided a variety of opportunities to be authentically engaged in all levels of the education system.
