Alberta School Councils' Association (ASCA) ACCOMPLISHMENTS 2017 - 2018

As a result of ongoing conditional grant funding from Alberta Education and district sponsored membership support for school councils in ASCA, the association has been able to continue support for the provincial legislation and education initiatives while advancing the knowledge and understanding about school council with school councils, groups of school councils, district staffs and pre-service teachers. This infographic summarizes the highlights from the July 1, 2017 to June 30, 2018 operational year.

Parents are engaged and participate in public education through their involvement in school councils and ASCA.

School councils are informed, knowledgeable and aware of their legislated role.

The voice of parents through school councils is represented in the education system through school council participation in ASCA.

78 %

School council chairs agreeing that school councils impact provincial decisions.

93 %

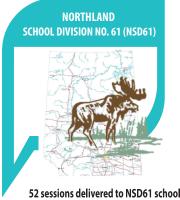

School council chairs agreeing that their school council influences decisions made at their school.

96 %

School councils agree ASCA effectively communicates the voice of parents to government and partner organizations.

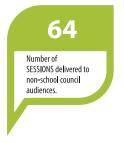

100 %

Alberta Education and other organizations' satisfaction with the contribution of ASCA on external committees.

52 sessions delivered to NSD61 school communities, 1 principal training session, 19 new school councils established.

The K-12 education system are knowledgeable and aware of the provincial requirements of school councils.

Number of WORKSHOP services delivered to support school councils.
