

School Council Engagement Task Force

*Alberta School Councils' Association
(ASCA) Members:*

The ASCA Board of Directors engages with Member School Councils, in an advisory capacity, through the School Council Engagement Task Force (SCETF).

The School Council Engagement Task Force is comprised of parents throughout the province, who are identified by their school council, to provide input on relevant education issues to the Board of Directors.

The ASCA Board recognizes the invaluable perspectives that individual councils provide, and appreciate the opportunity to gain a truly province-wide view from members.

If you are a parent on an ASCA Member School Council, and are interested in participating, please submit the form on our website at [Engagement Task Force](#). *A sign up form must be submitted, in order to receive a survey request to provide input.*

Members of the School Council Engagement Task Force must be willing to consult with their individual school council and parent community, regarding input on survey questions posed, and submit responses to ASCA in a timely manner.

Survey questions are distributed via email, along with information to help facilitate discussion.

Excited for the opportunity to collaborate with members throughout the province, ASCA looks forward to working with you and your school council this school year!

Please Note - the Task Force operates on an annual basis in the current school year (Sept-June) only, and does not carry over from a previous year. ***Participants must register (or re-register) each year.***
