

## Alberta School Councils' Association

Promoting parent engagement in public education

1200, 9925.109 Street Edmonton AB T5K 2J8 Phone 780.454.9867 or 1.800.661.3470 Fax 780.455.0167 www.albertaschoolcouncils.ca

ASCA's Parent Pandemic Pulse Survey, conducted mid October to mid November of 2020, sought to capture the experiences and perceptions of parents of K-12 students during the first few weeks of the 2020-2021 'back to school in a pandemic' reality.

Designed with the guidance of research experts Phil McRae and Lisa Everitt from the Alberta Teachers' Association (ATA), and utilizing the ATA's survey mechanism, the Parent Pandemic Pulse survey asked many of the same questions that had been asked of the ATA's members...Alberta's teachers. In designing their survey, the ATA used guidance from a World Health Organization (WHO) insight research survey tool and a Centre for Disease Control and Prevention (CDC) measurement scale. ASCA maintained that consistency and integrity for this survey.

ASCA believed then, as we believe now, that there is great value in being able to compare the responses of parents (some of whom are teachers) to the responses of teachers (some of whom are parents) when it comes to their confidence in the safety measures implemented for Alberta's students and school staff, or their concerns for their students' and families health and wellbeing.

The survey itself generated responses from just over 30,000 individuals, with a solid 21,000 completing it to form this report. ASCA promised privacy and anonymity to the respondents of the survey, and published the 46-page report without inclusion of the additional 428 pages of comments. The ASCA Board of Directors has utilized the data from this report to relay the parental experiences of 'school re-entry' to Alberta's Education Ministry, partners and stakeholders, and will continue to do so for as long as it is relevant.

Parents voices in education are vital. ASCA believes that parents have a right be to be recognized and respected as knowledgeable, supportive contributors to their children's education, and should be provided a variety of opportunities to be authentically engaged in all levels of the education system. This survey was one opportunity; an opportunity – we hope – that will provide cause for further exploration of the experiences and perceptions of parents.

Five, ten, even fifteen years from now, when the Covid-19 pandemic becomes an historical reference in a Social Studies curriculum, it is hoped that the children learning that curriculum will reflect on their memories through the pandemic, and know – because of this survey and the many others that have taken, or will take place, that their parents, teachers and leaders cared enough about what they were experiencing, to ask, and/or answer, questions designed to inform decisions, set directions and to truly understand their lived realities as a K-12 student during Covid-19.

Wendy Kewer

Wendy Keiver Executive Director Alberta School Councils' Association

# Confidential Final Full Data Report for Alberta School Councils' Association (ASCA) Parent Pandemic Pulse Survey

Research Limitations

The fact that the responses from this survey show similar patterns to a prior survey created using a research instrument designed by the Alberta Teachers' Association (who used guidance from a World Health Organization (WHO) insight research survey tool and a Centre for Disease Control and Prevention (CDC) measurement scale) does increase confidence in the representativeness of the results. As is often the case with exploratory research, new questions emerged that might become the focus of future research. The results of this research survey will be further analyzed and weighted for representation, and may be of use for the historical record of the impact of the coronavirus 2 (SARS-CoV-2) on Alberta.

While the findings from this Alberta School Councils Association (ASCA) survey may be helpful in providing insight into parents' perspectives during Alberta school re-entry in the Fall of 2020, some of the specific comments may not be applicable to other contexts. The large size of the survey sample was more than adequate for identifying common themes and key findings. However, because most of the respondents were self-selected, and there is some imbalance in regional participation, it is difficult to determine with complete certainty that the results are representative of the larger population of parents and guardians with children in kindergarten to grade 12 in Alberta.

1. Do you have children in Alberta's kindergarten to grade 12 (K-12) schools?

| Response      | Percent | le | Value |
|---------------|---------|----|-------|
| 21,67         | 100.0%  |    | Yes   |
| Totals: 21,67 |         |    |       |

2. For this survey, think of one child in your family and answer all questions based on this child's experience with re-entry. Please identify this child's grade level?

| Value            | Percent | Responses |
|------------------|---------|-----------|
| ECS/Kindergarten | 6.3%    | 1,371     |
| Grade 1          | 8.4%    | 1,820     |
| Grade 2          | 8.4%    | 1,815     |
| Grade 3          | 8.4%    | 1,825     |
| Grade 4          | 8.2%    | 1,774     |
| Grade 5          | 7.8%    | 1,698     |
| Grade 6          | 8.1%    | 1,750     |
| Grade 7          | 7.9%    | 1,707     |
| Grade 8          | 6.7%    | 1,448     |
| Grade 9          | 6.7%    | 1,450     |
| Grade 10         | 7.2%    | 1,552     |
| Grade 11         | 7.0%    | 1,525     |
| Grade 12         | 9.0%    | 1,941     |

## 3. How is your child learning in school at this time?

| Value                             | Percent | Responses |
|-----------------------------------|---------|-----------|
| Online Only                       | 9.7%    | 2,105     |
| Face to Face Only                 | 86.5%   | 18,701    |
| Blended (Online and Face to Face) | 2.9%    | 628       |
| Other - Write In                  | 0.8%    | 178       |

| Value                    | Percent | Responses |
|--------------------------|---------|-----------|
| Very Unhappy             | 4.7%    | 999       |
| Somewhat Unhappy         | 10.1%   | 2,143     |
| Neither Happy or Unhappy | 27.3%   | 5,792     |
| Somewhat Happy           | 38.9%   | 8,233     |
| Very Happy               | 19.0%   | 4,020     |
|                          |         |           |

| Value                           | Percent | Responses      |
|---------------------------------|---------|----------------|
| More difficult than l expected. | 15.2%   | 3,281          |
| About what I expected.          | 61.6%   | 13,307         |
| Easier than I expected.         | 23.2%   | 4,997          |
|                                 |         | Totals: 21,585 |

13. In the event of a presumptive (likely) student case of COVID-19, which of the following action(s) in the outbreak plan do you believe will be challenging for your child's classroom/school environment? (Check all that apply)

| Value   | Percent | Responses |
|---|---------|-----------|
| All items the student touched/used while isolated are cleaned and disinfected as soon as the student is picked up.                    | 44.5%   | 9,481     |
| The parent/guardian picking up the student from school within one hour (immediately).   | 41.1%   | 8,757     |
| Public health officials contacting the school and/or parent community.  | 31.1%   | 6,627     |
| Items that are not cleaned and disinfected are removed from the classroom and stored in a sealed container for a minimum of 72 hours. | 30.9%   | 6,589     |
| The student being isolated in a separate room.  | 30.0%   | 6,397     |
| The student not being able to be isolated in a separate room, but kept at least 2 metres away from other children/students.           | 27.6%   | 5,883     |
| None of the above.  | 22.5%   | 4,788     |
| The parent/guardian not picking up the student before the end of the school day.  | 19.7%   | 4,199     |
| The parent/guardian picking up the student from school in more than two hours.  | 18.9%   | 4,017     |
| The student wearing a non-medical mask.   | 14.5%   | 3,085     |
| Other - Write In  | 7.7%    | 1,632     |

14. In order to reduce the risk of transmission of COVID-19 among students/staff in Alberta schools, a daily COVID-19 screening checklist is to be used to identify individuals who may be symptomatic, or who may have been exposed to someone who is ill or has a confirmed case of the virus. Identify your level of agreement with the following statements:

|  | Strongly<br>disagree | Disagree       | Unsure         | Agree          | Strongly<br>agree | Not<br>applicable | Responses |
|--|----------------------|----------------|----------------|----------------|-------------------|-------------------|-----------|
| I complete the daily COVID-19 screening checklist each day before my child<br>enters their school.<br>Count<br>Row %   | 1,743<br>8.1%        | 2,013<br>9.3%  | 791<br>3.7%    | 7,394<br>34.3% | 7,394<br>34.3%    | 2,209<br>10.3%    | 21,544    |
| The daily COVID-19 screening checklist is being completed each day by other parents before their child/children enter the school.<br>Count<br>Row %                | 2,449<br>11.4%       | 3,403<br>15.8% | 8,240<br>38.3% | 3,518<br>16.3% | 2,067<br>9.6%     | 1,845<br>8.6%     | 21,522    |
| The daily COVID-19 screening checklist is being completed each day by staff<br>before entering the school.<br>Count<br>Row %                                       | 1,044<br>4.9%        | 1,117<br>5.2%  | 7,004<br>32.6% | 5,638<br>26.2% | 5,026<br>23.4%    | 1,674<br>7.8%     | 21,503    |
| The daily COVID-19 screening checklist is an effective tool to reduce the risk of COVID-19 transmission among students/staff in Alberta schools.<br>Count<br>Row % | 2,695<br>12.5%       | 3,956<br>18.4% | 4,745<br>22.1% | 6,393<br>29.7% | 2,958<br>13.7%    | 771<br>3.6%       | 21,518    |

15. Cohorting in Alberta Schools - A COVID-19 cohort is a small group of the same people who can interact regularly without staying 2 metres apart. A person in a cohort should have little to no close contact with people outside of their cohort. Does your school use a cohorting model with students?

| Value         | Percent | Responses |
|---------------|---------|-----------|
| Yes           | 56.8%   | 12,252    |
| No            | 11.8%   | 2,547     |
| Unsure        | 24.6%   | 5,317     |
| NotApplicable | 6.7%    | 1,455     |
|               |         |           |

16. If "YES" to Cohorting - Is your school implementing a cohorting model where your child is interacting only with the same people within their group (and not switching daily contacts or randomly interacting with others outside this cohort group) throughout the school day?

| Value          | Percent | Responses   |
|----------------|---------|-------------|
| Yes            | 55.6%   | 9,747       |
| No             | 10.9%   | 1,917       |
| Unsure         | 32.2%   | 5,638       |
| Not Applicable | 1.3%    | 226         |
|                |         | T- + 47 520 |

17. If "YES" to Cohorting - Do you have confidence that the cohorting model in place at your school will prevent or contain COVID-19 infection(s)?

| Value  | Percent | Responses      |
|--------|---------|----------------|
| Yes    | 32.8%   | 5,733          |
| No     | 31.8%   | 5,563          |
| Unsure | 35.3%   | 6,175          |
|        |         | Totals: 17,471 |

## **Research Limitations**

While the findings from this Alberta School Councils Association (ASCA) survey may be helpful in providing insight into parents' perspectives during Alberta school re-entry in the Fall of 2020, some of the specific comments may not be applicable to other contexts. The large size of the survey sample was more than adequate for identifying common themes and key findings. However, because most of the respondents were self-selected, and there is some imbalance in regional participation, it is difficult to determine with complete certainty that the results are representative of the larger population of parents and guardians with children in kindergarten to grade 12 in Alberta.

The fact that the responses from this survey show similar patterns to a prior survey created using a research instrument designed by the Alberta Teachers' Association (who used guidance from a World Health Organization (WHO) insight research survey tool and a Centre for Disease Control and Prevention (CDC) measurement scale) does increase confidence in the representativeness of the results. As is often the case with exploratory research, new questions emerged that might become the focus of future research. The results of this research survey will be further analyzed and weighted for representation, and may be of use for the historical record of the impact of the coronavirus 2 (SARS-CoV-2) on Alberta.
