

P19-16

Playground Supervisor Ratios, Identification and Communication

Sponsored by: École Nickerson Elementary School Council

Contact: Kris Rouge via email at houserouge@gmail.com

Background / overview

Because there is no provincial standard regarding playground supervisor/student ratios;

Because students need to be easily able to identify safe adults to approach on the playground and supervisors need to be better able to obtain required assistance via direct communication with the office in the event of student injury or any other requirement for assistance;

We request that Alberta Education require all schools ¹AND ECS ²to have an ³appropriate correct ratio of playground supervisors.

~~We further request that Alberta Education require all playground supervisors to wear vests for ease of identification by students.²~~

~~We further request that Alberta Education require all playground supervisors to wear vests for ease of identification by students.⁴~~

We further request that all playground supervisors be certified in the Respect in Schools program.

We further request that Alberta Education require all playground supervisors be equipped with devices to communicate with the school office in the event of student injury or requirement for additional adult assistance.⁵

AMENDMENT OPTIONS

"I move this motion be amended by..."

1. Amend by **inserting** word(s), sentence(s), or paragraph(s)
