INTRODUCTION

Supporting effective school council practices and demonstrating how parent engagement can enhance school improvement strategies, and ultimately student success, is at the core of all ASCA efforts.

The Alberta School Councils' Association (ASCA) is the provincial association representing parents on school councils.

Recognized as the voice of parents in public education, ASCA presents the parent perspective to government and education organizations in Alberta utilizing member determined advocacy policy.

The Government of Alberta recognizes the value of parents and the community to be engaged in the education of children. It is through school council that parents, community members and school staff have a means of participating in decisions that impact student learning success.

School councils were legislated in 1995 under Alberta's School Act and are mandatory for all schools in the public education system, including charter schools.

School councils are regulated groups of parents, principals, teachers, secondary students, and community representatives who work together to effectively support and enhance student learning.

The Alberta School Councils' Association provides support and resources to enhance parent engagement and school council effectiveness.

ASCA provides knowledge and skill development, consultation and workshops, to enhance meaningful parent contribution and participation through school councils across the province.

MESSAGE FROM OUR PRESIDENT

With another year of prudent fiscal stewardship, we worked diligently to utilize our resources and relationships to shift our business model while maintaining the high-quality learning opportunities, support, and advocacy that our members deserve. We continue to diversify our revenue streams, we deliver services with the same care and integrity we always have, and we have supported members, non-members, and partners throughout another unique school year.

The professional development we offer at ASCA continues to be greatly appreciated and well utilized by school council members. School councils are working diligently while fulfilling their legislated roles. Their work is valuable and crucial, which is why it is so important they are empowered to be the impactful local advocates their students need.

The ongoing advocacy we undertake on behalf of our Member School Councils is vital to shaping an education system that supports all students, is equitable for all students, and recognizes the individual merits of all students. Whether it's been about curriculum, funding, class sizes, transportation, supports, strains in the system, or equity for students, ASCA has worked steadfastly to effect change.

ASCA knows the importance and power of parental voice in education through school councils. The education and empowerment of school councils across our province is meaningful work and necessary because we know the engagement of parents in the education system is vital for student success.

Brandi Rai

We are grateful for the local support and advocacy that school councils offer their communities. The enthusiasm and dedication is inspirational, and empowering these voices at the provincial level is critical, meaningful, and invaluable work.

We believe that ASCA is relevant, sustainable, autonomous, and innovative.

MISSION

ASCA will engage and empower Alberta school councils while advocating for the parent voice in the education system.

Engage

ASCA promotes and supports greater parental engagement, reinforcing the expectations of the Assurance Framework, through school councils, within Alberta's education system.

Empower

ASCA builds capacity in parents and principals on school councils, along with other members of education communities, by providing skill development, resources, and materials to enable them to understand and enact, in alignment with the Assurance Framework, their legislated roles and responsibilities in Alberta's schools.

Advocate

ASCA contributes to Assurance in Alberta's education system by bringing a "parents' perspective" through school councils on provincial education issues to government and other education organizations.

PROVINCIAL EDUCATION

Parents bring a valuable perspective to the establishment and review of provincial goals for education and the success of all students.

ASCA advocates on behalf of Member School Council parents with the Education Ministry to affect positive change in Alberta schools.

Each year ASCA is invited to represent the advocacy positions established by the membership at provincial level committees. From April 2022 – March 2023 ASCA has been invited to, represented at, or participated on, the following:

VISION

Governed by a volunteer Board of Directors comprised of parents of students in K-12 public, separate, charter or francophone schools, the Association invests all assets into achieving its Vision.

One of the main objectives of ASCA, from its origin through to today, is that parents are seen as partners in education and they are vital to student success.

ASCA's role evolved to promote and support strong school communities with effective school councils as a means to facilitate collaborations among education partners, including parents, to enhance student learning.

Vision

A respected and empowered school council in every Alberta school.

Belief

Parents are recognized and respected as knowledgeable, supportive contributors to their children's education, and are provided a variety of opportunities to be authentically engaged in all levels of the education system.

Principles

The ASCA will adhere to and support its values by being adaptable, responsive, responsible and collaborative in all its dealings.
